

## LEGISLATORS GO TO CAUCUS FOR HOUSE CAUCUS

The house delegation in the next legislature from Shelby county will leave Wednesday night for Nashville to attend a caucus of the Democratic members, which meets at the capitol Thursday. The purpose of the meeting is the same as that for which the Democratic senators caucused a week ago, which is to prevent a fusion of Republican members of the legislature with a sufficient number of Democrats to control the two houses.

Shortly after the election a movement was started in Nashville to induce some of the Democrats to join with the Republican members for the organization of the two branches as well as for the election of state officers.

The Democrats soon learned of the movement, and it was forestalled by quick action. Not even the election of the governor, railroad commissioner and the loss of the state to the Republicans have prevented the president served to put the Democrats in a frame of mind to relinquish the remaining hold they have on state offices.

The Democratic senators at their caucus agreed to make in faction of the Democratic caucus their action and the informal meeting of the house members probably will go on record as favoring the same method of action.

The attempt to disrupt the organization and keep the Democrats out of a caucus was originated in a desire to defeat John H. Thompson, of Memphis, state controller, and Hill McAlister, of Nashville, state treasurer, and secure the election of a suitable successor to the Stevens, secretary of state, who is not a candidate for re-election.

In all probability the Democrats will stand together in the caucus and there is slight prospect that either Thompson or McAlister will have any difficulty in being re-elected.

The fight for secretary of state apparently is among E. N. Hason, of Memphis, and Frank A. Taylor, of Nashville, who will leave Wednesday night for Nashville to attend the caucus. Dean, Shea, Sunderland, Larran, Fattor and Gailor.

### TWELFTH PRIZE

BY CELESTE TARVER

Whitehaven School, Whitehaven, Tenn.

CELESTE TARVER.

When our forefathers crossed the Atlantic they brought with them a tiny spark of freedom, which after years of war and hardship burst into flame and burned away the barriers of tyranny and prepared a nation with liberty and justice for all.

I, as an American, should love this nation which cost my ancestors their life blood and I do love it.

Why? Because it is beautiful, rich and pure. Because it is a free country and we never have to yield our will, so long as we do not infringe on the rights of others.

America means opportunity. Every boy and girl can go through our school, develop himself to his fullest capacity. Not only in work but in play; for athletics develop us physically; reading good books trains our minds for better things and daily meeting different types of our school friends trains us to mingle with people.

Through these influences America trains her boys and girls to be citizens of a great democracy.

The cause of America's greatness is expressed on her coin, "In God We Trust." The simple life of our people in this great democracy carries out the ideal of justice and righteousness.

That dull, dead appearance of the hair no longer troubles the woman who has adopted the silimene method of keeping her tresses in curl. The result is very different from that produced by the drying, devastating waving iron, which appears more naturally wavy and curly, and the application is really beneficial to the life and growth of the hair.

Any druggist, of course, can supply the liquid silimene. A small quantity should be put on just before doing up the hair, using for the purpose a clean tooth brush, drawing this down the full length of the hair from root to tip. The effect is delightfully surprising, and there is no discoloration, no stickiness, greasiness, nor any other unpleasant accompaniment. The hair is quite manageable, no matter how it is fashioned.

But science has found a way, and a sure way, to make a woman's hair retain the privacy of her own home. The PLASPA method is unquestionably the most scientific, logical and successful treatment for the hair.

The PLASPA PAD when adhering closely to the body can not possibly slip or shift out of place, therefore, can not be used as a pillow. To be used, it is applied to the head and neck, and the head is tilted back and the neck is held straight. To be used, it is applied to the head and neck, and the head is tilted back and the neck is held straight.

Learn how to close the heretofore open, as nature intended, the rupture CAN'T come from your nose today to PLASPA CO., block 55, St. Louis, Mo., for FREE trial pads and the information necessary.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force you to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them.

Many a Pretty Face Spoiled by Pimples

Don't close your eyes to the warning which nature gives, when unsightly pimples appear on your face and other parts of the body.

Not only are these pimples and blotches disfiguring, but they lead to serious skin diseases that spread and cause the most discomforting irritation of the skin.

When these symptoms appear on any part of the body, take prompt steps to rid the blood of these disorders. And the one remedy which has no equal as a blood purifier is S. S. S., the pure vegetable blood medicine, which has been on the market for more than fifty years. It is sold by druggists everywhere.

If you are afflicted with this form of skin disease do not expect to be cured by lotions, ointments, salves and other local remedies, as they can not possibly reach the source of the trouble, which is in the blood. Begin taking S. S. S. today, and write a complete history of your case to our chief medical adviser, Dr. J. C. Williams, at 1212 Broadway, New York, N. Y., who will give you special instructions, without charge. Write at once to Medical Director, 1212 Broadway, New York, N. Y.

Maldezone liberates a gas which goes wherever the air goes, thus giving you real security in your home. Use Maldezone in a 50c Air Purifier in your bedroom as a prevention of infectious colds and influenza.

Price, 50c and \$1.00 per bottle, Sold by All Good Druggists. If Your Druggist Cannot Supply, Order Direct. Manufactured By Maldezone Chemical Mfg. Co. Front and Market Ave. Memphis, Tenn.

## DEFECTION ALLOWANCE IS 3 PER CENT

Utilities Commission Refuses Street Railway's Petition to Increase to 4 Per Cent. Enter Traffic Order.

The state public utilities commission at Nashville Tuesday entered an order continuing the rate of return allowed the Memphis Street Railway company for depreciation of its property at 3 per cent. The city was represented by City Attorney Walter P. Armstrong in the hearing on this point.

Mr. Armstrong was accompanied to Nashville by Mayor Rowlett Pale, and following the decision of the commission, both returned to Memphis Tuesday night.

The street railway company made its fight for a raise of the item of depreciation to 4 per cent on the depreciable property, the value of which is placed in the rate base valuation at \$7,500,000. The higher rate was justified because of the trackage to be abandoned under the re-routing plans submitted by Ross W. Harris, the value of the abandoned tracks constituting a proper charge against the renewal and replacement funds, according to the contents of Lovick P. Miles, counsel for the company.

Following the decision to retain the rate of 3 per cent for depreciation, the commission issued an order in-structing the city and the street car company to put the recommendations of the survey into effect.

The members of the commission expressed themselves as greatly pleased with Mr. Harris' survey which they commended very highly. The hearing of assessment figures for public utilities before the equalization board is still under way and will probably not be concluded until Friday or Saturday. Mr. Armstrong presented the city's views on the assessment figures Tuesday afternoon. It may be several days before the board's rulings on the figures are made public.

Mayor Paine made the discovery while in Nashville that some of the utilities property taken into the city last December had been overlooked in the assessment of utilities in the city. Chief among these properties is the Forest yards of the Southern railway just east of the city. The entire amount represented by the property overlooked is about \$500,000 which means taxes for the city of about \$10,000.
